Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2615

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, drawn to processing apparatus for recording a first picture supplied and for reproducing a second picture recorded, classified in class 386, subclass 46.
- II. Claims 8-14, drawn to processing apparatus for dealing with moving and still pictures, classified in class 386, subclass 120.
- III. Claims 15-24, drawn to information processing apparatus wherein the display controlling means provides display control in such a manner as to display a first, a second, a third and a fourth display area, and to display an icon, classified in class 386, subclass 95.

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as processing apparatus for recording a first picture supplied and for reproducing a second picture recorded; invention II has a separate utility such as, processing apparatus for dealing with moving pictures, and providing display control so as to display, given a reference position on a screen, still pictures in positions at distances from the reference position, the distances reflecting the differences between a time stamp corresponding to the reference position; and invention III has a separate

utility such as providing display control in such a manner as to display a first, a second and a third display area. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Joseph A. Scafetta, Jr on 2/11/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Onuaku whose telephone number is (703) 308-7555. The examiner can normally be reached on 8:30-6:00 except 2nd Fri : 8:30-5:00.

Art Unit: 2615

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Christensen can be reached on (703) 308-9644. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
